### The Founders

Germain Pigeon, the President and founder of Constructions Géric, has a passion for construction spanning forty years. And, **for 20 years now, he has been proud to build dream homes and communities where families can settle in complete comfort.**

Mr. Pigeon is a well-known and respected businessman in the Outaouais area. He has earned a reputation for honesty and he has become known for residential developments that offer his customers a passionate buying experience.

Mr. Pigeon's passion for construction has passed on to his son, Eric Pigeon, Vice-President of Constructions Géric. Éric started his career as a construction worker while he was still in school, later becoming a site foreman. After graduating with a degree in Finance from the Université du Québec en Outaouais and acquiring extensive experience in the field, he entered the firm's management and within a few years was named Vice-President of Constructions Géric.

Over the years, Éric developed a particular passion for architectural design. He constantly strives to improve construction methods and to perfect the models offered by Constructions Géric with the aim of building homes that consistently surpass his customers' expectations.

Father and son have together inspired their entire team to embrace the goals of excellence and superior quality that have forged Constructions Géric's enviable reputation
